INT and local Ethical Committee approvals by Cancer Registry

<i>Version</i>	<i>Author</i>	<i>Date</i>
V1	Roberto Lillini	31.10.2018

Background

Some of the Cancer Registries (CRs) collaborators of the project declared that an approvals by local Ethical Committees (ECs) was due, in order to be allowed to participate to the study, while for other CRs the general approval of the study by the INT EC was enough.

On the 13th of April 2018, this last one was provided, while the local are going to be provided by the single collaborators.

The following table reports a summary of the present situation. At 31/10/2018, only three CRs have not yet received communication about approval by their local Ethical Committees (Bremen from Germany, Trento and Alto Adige from Italy), even if they are on proceedings.
